## **READ THE FACTS TO LEARN THE TRUTH ABOUT THE BACKROOM DEAL THAT COULD BRING A CASINO TO OUR COMMUNITY:**

In 2014, the FLORIDA Seminole Tribe failed to build a casino in our area. And now, a decade later, they are trying again.

The Village of Bristol has continuously denied any knowledge of this land being used for a casino despite the proposed buyer having the same address as the Florida tribe that attempted to bring a casino to the same area in 2014.

In an apparent attempt to keep the proposed sale from residents, Village leaders rushed the Friday before to schedule a special closed door meeting for Monday June 13, and FAILED to post it on the Village website calendar. Surprised no one spoke up about the issue, Village leaders are using the lack of attention by residents as evidence that the community supports the sale.

Then, behind closed doors without public input or transparency, Village leaders agreed to sell approximately 60 acres to the Florida casino operator.

**CALL 262-857-2368 AND TELL VILLAGE  
OF BRISTOL LEADERS "NO" ON EXPANDED  
GAMBLING IN OUR COMMUNITY.**

## OUR LEADERS ARE EMBARRASSING US:

Just hours before agreeing to the sale, Village of Bristol attorneys said "I still do not have an offer."

While they claim to know nothing about a project to build a casino, the proposed buyer — Kenosha Land Co, LLC — has the same address as the Hard Rock International/Seminole Hard Rock Support Service office, a prominent Florida based casino operator.

A community member brave enough to speak up said "Whenever there's a backroom deal, there's back pockets getting lined."

Help Hold Bristol Leaders Accountable.

**Stand Up for Our Community.**
